

How does it move?

Question: How will my object move?

Hypothesis: If I place my object on the ramp, then it will move _____ .

Materials: wheel, ball, block of wood, marble, penny, and vehicles

Procedure:

1. Choose an object.
2. Predict how it will move.
3. Test or investigate how the object moves.
4. Record your results.

Results:

Object	Predict How will the object move?	Test How did it move?
wheel		
ball		
block of wood		
marble		
penny		
vehicle 1		
vehicle 2		

Conclusion: Did each thing move the same way? Write a sentence to tell what you learned.
