Engineer Planning Sheet

What problem are you trying to solve:

Draw a design of what you plan to build (with labels):

Build it—Test it—Make it better

Science

Name: _____

Teamwork			
	Starting	Building	Performing
My Work	I could have worked better in my group	I worked well in my group	I was a leader in my group
My Team's Work (including you)	My team could have worked better together	My team worked well together	My team worked very well together
Effort	I could have put in more effort	I put in good effort	I put in a lot of effort

Project			
	Starting	Building	Performing
Design	There were flaws in our design	The design was good	The design was very good.
Function	The project didn't work the way I wanted it to	Some aspects of the project worked and some didn't	The project worked very well
Programming (if necessary)	The program didn't work the way I wanted it to	Some of the program worked and some didn't	The program worked very well.

How closely does your final project look to the original design?

Not very close	Somewhat close	Very close
----------------	----------------	------------

If you had this project to do over again...

It would be totally different	It would be slightly different	I wouldn't change a thing
-------------------------------	--------------------------------	---------------------------
