

Using my own words, a fossil is...

An example of a fossil is....

Type:                      Draw it:

The characteristics I saw when I observed the fossil...

This tells me that the environment was...

This is what a paleontologist looks like including the tools used.

I learned...

I wonder...

On a scale of 1-4 (I rate myself a \_\_\_\_\_) because...

Rating Scale:

1= I do not understand what fossils are or what paleontologists do.

2= I somewhat understand what fossils are and what paleontologists do.

3= I understand what fossils are and what paleontologists do.

4= I understand and can teach others what fossils are and what paleontologists do.
