

## Science Research Outline Sheet

The Citizen Science Project selected was: \_\_\_\_\_

We found this project at: [URL:](#) \_\_\_\_\_

The purpose of this project is to:

Scientists need people to do the following to help with the project:

What time of the year do they need data collected?

What type of data would we collect?

Can students help with this project? What are the grade levels or ages the scientists suggest can help with this project?

Why we want to help with this Citizen Science project?

## Consequences Page

Name of Project: \_\_\_\_\_

<b>Positive Consequence if we help</b>	<b>Negative Consequence if we do not help</b>

**My first choice for the class Citizen Science project is:**

**Why I think we should support this project – provide reasons of why participating in this Citizen Science project would be important.**

**My second choice for the class Citizen Science project is:**

**Why I think we should support this project – provide reasons of why participating in this Citizen Science project would be important.**
