What Happened to the Ice Cube?
When you put an ice cube on top of the sheet of paper, make a prediction about where you think the ice cube will melt fastest.

Black Sheet of Paper  White Sheet of Paper

Observations when the ice cube is on top of the sheets of paper.

When you put an ice cube under the sheet of paper, make a prediction about where you think the ice cube will melt fastest.

Black Sheet of Paper  White Sheet of Paper

Observations when the ice cube is on top of the sheets of paper.
Sketch what happens to sunlight when it hits each of the following.

Black Sheet of Paper

White Sheet of Paper

Indicate where the sun would be for the person using the umbrella to be shaded from the sun.
