The AEOP STEM-In-Action Grant is awarded to five teams selected by judges and based on the evaluation of the teams' proposed implementation plans. Each of the five selected teams will receive an award of up to $5,000 and will be invited to the National Judging & Educational Event in June. Evaluation of STEM-In-Action awards is separate from the teams' overall project scores. The grants are awarded across all grades to the teams whose implementation plans prove that their projects provide the greatest possible impact within their communities. A team does not have to be a national finalist team for this grant opportunity. It is open to any regional finalist team.
