

Vocabulary Assignment

Name: _____

Define or explain the following terms that are grouped by category: Genetic Markers and Lab Values; Medical Conditions; and Procedures and Other Terms.

Genetic Markers and Lab Values

BRCA2, BRCA1:

PTEN:

TP53:

Carcinoembryonic antigen (CEA) and CA 19-9:

Lynch syndrome:

Complete blood count (CBC):

Comprehensive/complete metabolic panel (CMP):

Mean corpuscular volume (MCV):

Hemocult:

Lactic acid dehydrogenase (LDH):

Erythrocyte sedimentation rate (ESR):

Prostate specific antigen (PSA):

Medical Conditions

Anorexia:

Anemia:

Diverticulitis:

Dyspnea:

Gastrointestinal reflux disease:

Hematuria:

Hepatomegaly:

Hyperglycemia:

Hypertension:

Von Hippel-Lindau syndrome:

Blastic lesion:

Cowden syndrome:

Li Fraumeni syndrome:

Procedures and Other Terms

History and physical exam:

Digital rectal exam:

Fecal occult blood test (FOBT):

Endoscopy:

Colonoscopy:

Bronchoscopy:

Laparoscopy:

Needle aspiration:

Tomosynthesis:

Mammogram:

Breast exam:

Biopsy:

Ultrasound:

Thoracentesis:

Mediastinoscopy:

Thoracotomy:

Computerized tomography (CT) scan:

Positron emission tomography (PET) scan:

Magnetic resonance imaging (MRI) scan:

Transrectal ultrasound (TRUS):
