

Sunset Science Sack

I will abide by the safety rules of science listed below. I will also read the instructions carefully for any other safety concerns an experiment might have.

Safety Rules of Science

1. **NEVER** put anything in your mouth
2. **Listen** carefully to the instructions
3. **Make sure** all supplies are returned to the Sack and clean up your work area!

I will be very careful with the materials and not use them as toys. I will check that everything is back in the Sack and I will return it every Monday.
