

Sample Letter to Parents

We are making science vocabulary hats in school, and we need your help to ensure that every hat is awesome. Each student will be assigned a science vocabulary word. They will research the definition and be given a plastic top hat that they will decorate to represent their word visually. You can help by sending leftover craft materials and art supplies to school. We will make our hats on Friday. We need chenille stems, aluminum foil, colored cotton balls, curling ribbon, balloons, paper plates of various sizes, sequins, beads, glitter, etc. Please do NOT go out and buy new stuff. Odds and ends are perfect.
