

Investigating Properties of Rocks

Look carefully at your rock sample.

Draw a detailed drawing of your rock.

Write a list of words you would use to describe your rock.

Share your describing words and make a class list.

Complete the following data table with words and drawings.

<p>What color is your rock?</p>	
<p>Look at the bits or pieces that make up your rock. What size or sizes are they? Big, medium, or small?</p>	
<p>Does your rock have layers?</p>	
<p>Does your rock have fossils?</p>	
<p>Does your rock have air holes?</p>	
<p>Gently rub your rock back and forth against the paper. Do any bits break off or leave color on the paper?</p>
