

GreenTeam Application Form

Date: _____

What is the GreenTeam?

Chaparral Elementary School and ASU have received a grant to develop GreenTeam—a student environmental education group. GreenTeam leaders will be selected through teacher recommendation, student interest, and an application process. This group will promote and develop environmental education at Chaparral Elementary School by doing the following:

- 1.) Training GreenTeam student leaders (5th–6th grade) through a comprehensive Saturday training session at the Riparian Preserve at Water Ranch (SE corner of Guadalupe and Greenfield, behind the Maricopa County Public Library)
- 2.) Planning and coordinating grade level field trips (2nd–4th grade) during the 2011–2012 school year to the Riparian Preserve. Trained GreenTeam leaders will guide and teach peers on these field trips.
- 3.) Develop environmental education curriculum and training for students at Chaparral Elementary School
