

We planted our seeds on _____ (Insert day and date). Our seeds are _____ (type)

Step #1 Container	Step #2 Filled with	Step #3 What was planted	Step #4 Water	Step #5 Label Containers	Step #6 Location

Observations about Seed Growth

Date: _____	Date: _____	Date: _____
Date: _____	Date: _____	Date: _____

Which type of soil is best for seeds?

The type of seed I planted was _____ . Date of planting _____

In the two boxes below, create a bar graph that will represent the height of your plant for two different soils. You should have the date on the horizontal axis and the height in centimeters on the vertical axis.

Soil type: _____

Soil type: _____

Explain which type of soil was better for your plant growth. Use evidence and data from your investigation to support your answer.
