

Patterns in the Sky

Moon Observation Calendar

Insert the days of the month and time you observed.
Shade in the amount of the moon you

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
						
						
						
						
						

Patterns in the Sky

I predict that the amount of the moon visible will....

What stage of the phases of the moon was last night based on your observations? Based on what you know about the phases of the moon, what phase will come next? Illustrate each.

Current phase of the moon

I think the next phase of the moon will look like....

Describe the pattern you observed with the phases of the moon.

Illustrate and label each phase of the moon in sequence beginning with the new moon below.
