

Measuring Up

My height is _____ inches. When I compare my height to other students, I am taller than _____ who is _____ inches tall and shorter than _____ who is _____ inches in height. I am about the same size as _____ who is _____ inches tall.

Comparing My Height

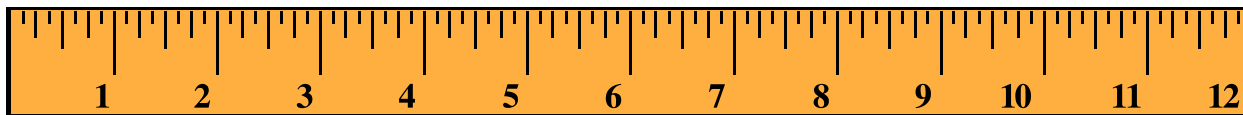

I selected the following objects to measure and compare to my height:

Object	Size (Height)	Taller or Shorter

Who is taller or smaller than you?

Write a sentence that compares your height to two of the animals in the book.

Measuring our Mascot

Our mascot is _____ inches tall.

Identify and measure one object for each comparison:
An object that is bigger (taller) than our mascot is:

It is _____ inches tall.

An object that is smaller (shorter) than our mascot is:

It is _____ inches tall.

An object that is about the same size as (similar to)
our mascot is:

It is _____ inches tall.

Actual Size

Select one of the animals described in the book and compare the length of that animal to an object in the room.

Animal selected:

Size of animal:

Comparison object:

Make two different comparisons of animals mentioned in the book and include the size of the animal and proper units.

My Favorite Stuffed Animal's Actual Size

Height: _____

Width: _____
