

Movement of Earth's Materials

Station #1: Weathering

Before Observations	After Observations
---------------------	--------------------

Where might this happen in the natural world?

Station #2: Deposition

Initial Observations and Sketch

Observations at...			
1 minutes	5 minutes	10 minutes	20 minutes

Station #3: Layering

Sketch the formation you made:

Sketch when formation is folded in half.	Sketch when formation is bent in an S shape
--	---

What might cause this type of movement in the earth's surface?
