

You are walking in the forest when you come upon a pack of Arctic wolves and their pups.
(Use the key concepts from our word wall to help explain your answers)

1. List the traits that you see in the wolves and their habitat.

(e.g. Round eyes)

2. How do wolves' traits help them survive in their habitat?

(e.g. Fennec fox has large ears to shed heat)

3. What are some similarities between the parent wolf and its offspring?

(e.g. Fennec fox and kit both have big ears)
