

## The Sun and Shadows

Place the object on the table. Change where you hold the flashlight to create a shadow. Draw your object on the table. Place an X at the spot where you are holding the flashlight to create each type of shadow.

A short shadow	No shadow	A very long shadow
		
<p>Explain how each picture above is similar to the pictures of the girl in the story. Draw the girl in the story and location of the sun.</p>		
		

How did my shadow change during the day?
