

Bess Beetle Mini Investigation lab report

Mini Investigation #1-Light vs. Dark: Fold your index card into a tent shape and place it halfway over your Bess beetle. Observe to see if your Bess beetle prefers to be in the darker area under the index card tent or out in the light.

I found out that _____

Mini Investigation #2-Wet vs. Dry: Place a moistened sponge next to a dry sponge. (They should be touching.) Place your Bess beetle half on the wet sponge and half on the dry sponge. Observe to see if your Bess beetle prefers the wet or dry sponge.

I found out that _____

Mini Investigation #3-Rough vs. Smooth: Place the plate glass and sandpaper next to each other. Place your Bess beetle half on the plate glass and half on the sandpaper. Observe to see if your Bess beetle prefers the glass or the sandpaper.

I found out that _____

Mini Investigation #4-Moist Decaying Wood, Oatmeal, or Sand Habitat: Place a piece of moist decaying wood, a pile of oatmeal, and a pile of sand in a circular formation surrounding your Bess beetle. Observe to see which habitat your Bess beetle prefers.

I found out that _____
