

Animal Group Sheet

I am researching	
What is the name of the group this animal lives in? i.e. Penguins live in colonies.	
Describe the age, number, etc. of the animals that make up this group.	
How is food obtained for the group?	
What type of shelter does the group need?	
What ways do the members of the group interact with each other? i.e. play, grooming etc.	
Is there a lead member or hierarchy in the group? Describe how the group is structured.	
What ways do members of the group communicate?	
What other behaviors help the group to survive?
