

Civil Engineer Planning Sheet

Did each group have the items in the same places on their plot of land? What did you need to do to line these plots up?

Why did you put each of the following where you did in your city design?

Subway	
Pipes for Gas and Water	
Three Buildings	

What changes to the land did you need to make to put in these structures?

Sketch the three plots of city land with all of your structures. Label each.
