

## What's the Weather Student Cards

- ✓ Our city/country is \_\_\_\_\_ and it is located in the \_\_\_\_\_ Hemisphere.
- ✓ Since our city/country is in the \_\_\_\_\_ Hemisphere, this means that our summer months are \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_.
- ✓ Based on the information that was graphed, the month with the highest average temperature is \_\_\_\_\_.
- ✓ Based on the information that was graphed, the month with the lowest average temperature is \_\_\_\_\_.
- ✓ Compare this location to the place where you live. Make sure you use both temperature and precipitation amounts in your comparison.
  
- ✓ Based on the current season, what would you predict the weather to do in the future?

A decorative border consisting of a repeating pattern of stylized sun icons with yellow faces and orange rays, arranged in a rectangular frame around the page content.

**Discussion around the hemisphere where our city is located.**

When we examine the temperature in December of the year compared to June of the year, we notice that.....

When you examine the average temperature of locations and consider where it is located in terms of distance from the equator, what do you notice about the temperature?
