

Discovering Diversity Student Sheet

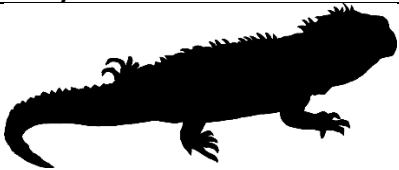

Card Set A – Finches

What do you notice about the different shapes of the beaks on the different finches?
List your observations and sketch the different beaks.

Card Set B – Marine Iguanas

Look at the iguana's head, mouth, and claws. Make observations about these features.
List your observations and sketch the features.

Card Set C – Kallima Butterflies

List your observations and sketch the butterflies. Why would looking like a dead leaf help these butterflies survive?

In your own words....
How do adaptations help animals survive?

What is natural selection?
