

Gravel fossil activity.

(**Note:** This activity can be modified to address gravel samples found in your local area. The *Roadside Geology* book series and American Association of Petroleum Geologists [AAPG] regional maps can be useful resources to help modify this activity for local area gravels.)

1. Find four pieces of gravel with fossils included in them. Briefly sketch your fossils below:

A. Identification: _____

B. Identification: _____

C. Identification: _____

D. Identification: _____

2. Use your gravel booklet, "Fossil Hunting in Louisiana Gravels," to identify the fossils in the gravel. Write your identifications in the above spaces.

3. How do you know that the features you identified are from once-living organisms, and not the result of weathering and erosion?

Rock number	Features
A	
B	
C	
D
