

Proposed consequence map selection matrix in which organisms of increasing phylogenetic proximity to humans are suggested for cyborg development under different scenarios.

Modified Organism	You work for Homeland Security and need to gather information from a suspected terrorist cell.	You want to determine the levels of radiation two years after a core meltdown at a nuclear power plant.	You want to search for survivors after a building with 50 people has collapsed during an earthquake.
 <i>Blaberus</i>			
 <u><i>Rattus</i></u>			
 <u><i>Felis</i></u>
