Design worksheet

| Design worksheet | | | |
|--|---------------------|--|---------------|
| Materials | | | |
| Material | Cost Considerations | Appearance | Functionality |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | I | I |
| Compost Requirements (think of things such as heat, ease of turning, moisture, etc.) | | | |
| Requirement | | Design Consideration | |
| (what does the bin need to create compost) | | (how will you include this in your design) | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| | | | |
| Size & Scalability (How big is it? Will it fit in the space? Can it be made to serve a group of 5 people? 100 people?) | | | |
| | | | |
| | | | |
| | | | |
| Other terms 2 (Wheels are considered to the 2 of the considered to | | | |
| Other Issues? (What happens when it rains? How long will it take to build? See if you can think of more) | | | |
| | | | |
| | | | |
| | | | |
