

2022-2023

eCYBERMISSION STEM-in-Action Grant Recipients

The eCYBERMISSION STEM-in-Action Grant is awarded to five Regional Finalist teams based on the evaluation of the teams' proposed implementation plans. Each of the selected teams will receive an award of up to \$5,000 and be invited to the following year's National Judging & Educational Event (NJ&EE) to present on the implementation of their plan. Evaluation of STEM-in-Action Grants is separate from the teams' overall project scores. The grants are awarded across all grades to the teams whose implementation plans prove that their projects provide the greatest possible impact within their communities.
